ARC'TERYX Brand experience + Cultural positioning

ARC'TERYX sponsorship with the December 1-31 Art Exhibition to be held at GYRE Gallery on Omotesando

- The partnership starts with a real integration of ARC'TERYX Clothing, Packs, Footwear, Accessories, and Climbing Gear in the journey of artistic creation across American and Japanese Iconic landscapes.

- Films and still images will be generated with appropriate product usage in a documentary style that will be shown at the gallery as part of the exhibit, cutdowns will be used as promotion material for the GYRE Gallery and Artist as well as ARC'TERYX Japan in store and social media content.

- In the physical gallery some articles may also go on display, actual backpack used in the field, boots etc. Note: they will likely have paint spatters and be worn from usage.

Note GYRE Gallery attracts a steady crowd of foot traffic from the building retailers and restaurants especially over the December Holiday so the expected number of gallery visitors is in the thousands over the monthlong show.

ONE WITH NATURE

TO LOVE AND RESPECT NATURE IS TO LOVE AND RESPECT OURSELVES

This climate crisis does not have to be a story of loss but rather a story of redemption, rebirth, and change. Alejandro Lopez's paintings capture the spiritual nature, the grounding energy of our shared existence with the natural world. By learning to love and respect nature we love and respect ourselves, that is the change needed to make a difference for a new world.
