Azuma Farm, Koiwai - Brand experience + Cultural positioning

Alejandro M. Lopez (AML) is a plein air painter whose practice is built entirely around immersion in the natural world. His upcoming solo exhibition "One With Nature" opens December 4th at GYRE Gallery, Omotesando - one of Tokyo's most culturally significant spaces - running through January 8.

We are proposing a short artist residency at Azuma Farm Koiwai: a stay of several days during which Alejandro would paint en plein air across the farm's landscapes, responding directly to the land in its seasons.

The works created at Koiwai could become part of the exhibition narrative - with the property credited as the origin point of that body of work, told through paintings, film, and the story of the stay itself.
