FJÄLL RÄVEN

Fjällräven Brand experience + Cultural positioning

Fjällräven sponsorship with the “One With Nature” December 1- Jan 8 Art Exhibition to be held at GYRE Gallery on Omotesando

- The partnership starts with a real integration of Fjällräven Clothing, Packs, Footwear, Accessories, and Climbing Gear in the journey of artistic creation starting this Spring running through Summer, Fall, across American and Japanese Iconic landscapes.

- Films and still images will be generated with appropriate product usage in a documentary style that will be shown at the gallery as part of the exhibit, cutdowns will be used as promotion material for the GYRE Gallery and Artist as well as Fjällräven Japan in store and social media content.

- In the physical gallery some articles may also go on display, actual backpack used in the field, boots etc. Note: they will likely have paint spatters and be worn from usage.

- Potential Fjällräven pop-up room in the exhibition
  Note GYRE Gallery attracts a steady crowd of foot traffic from the building retailers and restaurants especially over the December Holiday so the expected number of gallery visitors is in the thousands over the monthlong show.
